

# Sea Mercy Donation Request Lists

The medical needs in a third world nation are beyond our imaginations and can often seem overwhelming at first glance of our below request list. But please know that we are not expecting any one individual or organization to provide all that we are requesting, we are only asking for what you can give, or for what might be wanting to "get ride of" or that might be antiquated from your perspective and recently replaced. It will be a valuable treasure for our Sea Mercy volunteers and patients and/or for island nation partners and their remote clinics. When reviewing the below list, please pay special attention to the items in **RED** as they are the items most in need.

We will primarily be working and operating "on vessel" so our needs are more "small footprint" items that can be easily re-stocked at the end of each 2 week rotation. Additional "larger footprint" items will be delivered to the nearest remote land based clinics for their use, and for our remote island patient emergency referrals. So any item you donate will be utilized either directly by Sea Mercy, or indirectly through the Clinics.

Ship To:  
**Sea Mercy**  
25075 West Demming Road  
Elmira, OR 97437

- Traction unit
- Vaporizers
- Ventilator
- Vital sign monitors (must have modules if required)
- Weighing scales - adult, infant
- X-ray processors / developers
- X-ray view boxes (wall-mounted only)

## **Pharmaceuticals/Medicines\***

When donating pharmaceuticals, our primary area of treatment on the Floating Health Care Clinic will be in the below categories, so any medicines that you can contribute to help meet those needs would be greatly appreciated.

- **Infections**
- **Pneumonia/Respiratory**
- **Fungal infections and rashes**
- **Communicable Diseases**
- **Diarrhea**
- **Tuberculosis**
- **ARI cases**
- **Minor surgeries/injuries**
- **Diabetes**

\* Because we will be referring urgent or special treatment patients that we evaluate and cannot treat to the primary care hospitals, their need for these special medicines is just as crucial. We have also attached the "**WHO Model List of Essential Drugs**" for your review and consideration.
